QUESTION PAPER

Environmental Studies (EVS) Annual Assessment

GRADE 1

MEDIUM

Sense Organs | People Who Help Us | Types of Houses | National Festivals ...

MAXIMUM MARKS	QUESTIONS	TIME ALLOWED	SECTIONS
50	28	56 Minutes	7

Name: _____ **Roll No.:** _____ **Date:** _____

GENERAL INSTRUCTIONS

1. Read all questions carefully before answering.
2. All questions are compulsory.
3. Ensure your handwriting is neat and legible.

SECTION A — Choice Based Questions

2 Questions | 2 Marks

Read each question and circle the correct answer.

1 Based on the clues provided, what sense organ is being described? 'I have seeds inside me. I am a _____.' — 1 Mark

(A) Eye **(B)** Ear

(C) Nose **(D)** Tongue

2 In the context of 'People Who Help Us', what am I if I have seeds inside me? What is this? — 1 Mark

(A) A fruit **(B)** A vegetable

(C) A seedling **(D)** A nut

SECTION B — Fill in the Blanks

4 Questions | 4 Marks

Fill in the blanks with the correct word.

3 A house that is built with a roof and walls made from concrete, bricks, or stone is called a _____ house. — 1 Mark

4 A bungalow is a type of house that is usually one _____ and often has a porch. — 1 Mark

5 I have seeds inside me. I am a _____. **1 Mark**

6 During national festivals, people often gather to celebrate their culture and traditions by _____ various events and activities. **1 Mark**

SECTION C — Match the Following

5 Questions | 5 Marks

Match the items in Column A with Column B. Write the correct letters.

7 Match the parts of a plant in Column A with their correct descriptions in Column B. **1 Mark**

COLUMN A	COLUMN B
1. Seed	**A.** Anchors the plant in the soil and absorbs water and nutrients
2. Root	**B.** Supports the plant and transports water, nutrients, and food
3. Stem	**C.** Produces food for the plant through photosynthesis
4. Leaf	**D.** Contains the embryo of the plant and can grow into a new plant

Write the letters: **1 - ____ 2 - ____ 3 - ____ 4 - ____**

8 Match each part of a plant in Column A with its correct description in Column B. **1 Mark**

COLUMN A	COLUMN B
1. Seed	**A.** Carry out photosynthesis to produce food for the plant
2. Root	**B.** Supports the plant and transports water, nutrients, and food
3. Stem	**C.** Contains the embryo and is responsible for plant reproduction
4. Leaves	**D.** Anchors the plant and absorbs water and nutrients from the soil

Write the letters: **1 - ____ 2 - ____ 3 - ____ 4 - ____**

9 Match the part of the plant in Column A with its correct description or function in Column B. **1 Mark**

COLUMN A	COLUMN B
1. Seed	**A.** Anchors the plant and absorbs water and minerals from the soil
2. Root	**B.** Supports the plant and transports nutrients and water
3. Leaf	**C.** Contains the embryo and can grow into a new plant
4. Stem	**D.** Carries out photosynthesis to produce food for the plant

Write the letters: **1 - ____ 2 - ____ 3 - ____ 4 - ____**

10 Match each part of the plant in Column A with its correct description or role in the plant's life cycle from Column B. **1 Mark**

COLUMN A	COLUMN B
1. Root	**A.** Reproductive part that develops seeds
2. Stem	**B.** Carry out photosynthesis to produce food
3. Leaves	**C.** Supports the plant and transports nutrients
4. Flowers	**D.** Absorbs water and minerals from the soil

Write the letters: **1 - ____ 2 - ____ 3 - ____ 4 - ____**

11 Match each part of the plant in Column A with its correct description or function in Column B. **1 Mark**

COLUMN A	COLUMN B
1. Root	**A.** Contains the embryo and is responsible for plant reproduction
2. Stem	**B.** Performs photosynthesis to make food for the plant
3. Seed	**C.** Anchors the plant and absorbs water and minerals from the soil
4. Leaf	**D.** Supports the plant and transports nutrients and water

Write the letters: **1 - ____ 2 - ____ 3 - ____ 4 - ____**

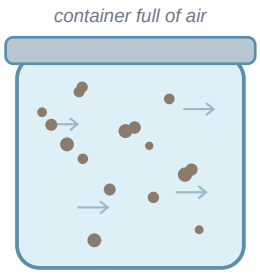
SECTION D — Picture Based Questions

3 Questions | 6 Marks

Look at each picture and circle the correct answer.

12 2 Marks

Look at the picture. What does it show about air?

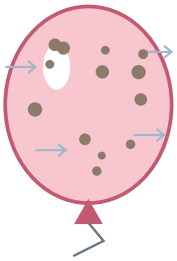


Look at the picture

(A) Air has weight
(B) Air fills space
(C) Air is invisible

13 2 Marks

What does this demonstrate about air?

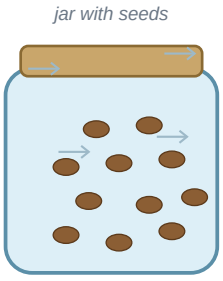


Look at the picture

(A) Air takes up space
(B) Air is weightless
(C) Air is invisible
(D) Air is only gases

14 2 Marks

What does this image illustrate about air?



Look at the picture

(A) Air fills space
(B) Air is heavy
(C) Seeds grow in air

SECTION E — Very Short Answers

5 Questions | 5 Marks

Answer in one word.

15 Which sense organ is responsible for detecting light? — 1 Mark

Answer: .....

16 According to the description, what sense organ is associated with the phrase 'I stand on my'? — 1 Mark

Answer: .....

17 Based on the description 'I have seeds inside me', which sense organ is being referred to? — 1 Mark

Answer: .....

18 What is the sense organ responsible for detecting sound? — 1 Mark

Answer: .....

19 Based on the description 'I have seeds inside me,' which sense organ is being referred to? — 1 Mark

Answer: .....

SECTION F — Short Answers

Attempt any 3 of 5 | 6 Marks

Answer any 3 out of 5 questions.

20 Describe the role of a nurse in helping us maintain good health and explain how they assist patients during treatment. — 2 Marks

Write your answer here

.....

.....

.....

21 In the context of 'People Who Help Us,' who is responsible for ensuring children get an education and guiding them in their learning process?

2 Marks

Write your answer here

22 In the context of 'People Who Help Us', which professional is responsible for providing us with medicines and advising us on health issues when we are ill?

2 Marks

Write your answer here

23 Based on the clue 'I have seeds inside me,' identify the object or entity being described and explain its significance in helping us or in our daily lives.

2 Marks

Write your answer here

24 In the context of 'People Who Help Us,' who is a person that teaches children at school and helps them learn new things?

2 Marks

Write your answer here

SECTION G Long Answers

Attempt any 2 of 4 | 10 Marks

Answer any 2 out of 4 questions.

25 Explain the different parts of a plant that are involved in reproduction, such as the flower, seed, and fruit. Describe their roles and how they work together to produce new plants. In your answer, include details about the function of the flower in pollination, the development of the seed, and how the fruit aids in seed dispersal. Additionally, discuss how these parts contribute to the plant's life cycle and ensure the survival of the species.

5 Marks

Write your answer here

26 Based on the given clues, describe the main parts of a plant involved in reproduction, including their roles and how they work together to produce new plants. In your paragraph, explain the function of seeds within the plant's life cycle, the role of flowers in pollination, and how the development of fruit helps in seed dispersal. Discuss how these parts are interconnected and contribute to the survival and propagation of the plant species.

5 Marks

Write your answer here

27 In the context of plant parts, describe the role of seeds and explain how they are developed and dispersed within the plant's reproductive cycle. Include in your answer how seeds are formed from fertilized ovules, the importance of seed dispersal for plant survival, and at least two different methods by which seeds can be spread in nature. Your response should also mention the part of the plant responsible for seed development and how this process contributes to the continuation of the plant species.

5 Marks

Write your answer here

28 Based on the description 'I have seeds inside me. I am a...,' explain which part of a plant this refers to. In your answer, describe the structure and function of this part, how it contributes to the plant's reproductive cycle, and its importance in producing new plants. Include details about how seeds are formed within this part and how they are dispersed to ensure the survival of the species.
